How to tap into over \$30 billion worth of grant funding available to Victorian businesses today

In this workshop, we will introduce you to a strategy to prepare your business, so that when a grant opportunity arrives, you are ready with the evidence you need to put together a winning application. Whether you write the application yourself, or hand over the information to somebody else, you will have the tools to build a successful submission.

We will show you how to tap into this river of opportunity, where to start and what you should watch out for. We will show you:

- ✓ How to find and choose the right grant solution for your business
- ✓ What documentation you need to be “grant ready” before you start looking
- ✓ How to navigate the application process and squeeze out every piece of info you need
- ✓ The winning formula that gets you noticed for the right reasons
- ✓ A process for getting ready for when the ideal grant opportunity comes along

Participants will leave the workshop with a Grant Ready checklist, as well as a list of information resources and a planning template to build their grant ready profile straight away.

Pat Grosse of The Community Entrepreneur has over 30 years’ experience in the field of grant preparation. Pat has worked on both sides of the funding fence both in the UK and in Australia. She currently works with organisations both large and small to access funding as well as trains and mentors grant writers.
