Share your baby's excitement about their world

Your baby is
fascinated by
everything!
You can make
up songs and
stories for them
and capture
their interest
and excitement.

- What is your baby interested in? Respond to what they point or laugh at.
- Story time at the local library is a great, free opportunity to enjoy stories together and meet others.
- Make up a silly song about ordinary things like clothes, nappy changing or bath time to sing to your baby. Your baby loves your voice!
- Play together and help your baby to explore new and exciting things. Try getting down to their level and see things from their point of view.
