

## Trusted information and time-saving features that families can use every day

Trusted advice at your fingertips, from the Maternal and Child Health Service. Finding reliable information in between MCH consultations can be challenging for families.

The MCH App combines trusted information and time-saving features into one simple tool families can use every day.

### Features will include:

- A library of reliable information on child and family health topics
- Reminders for MCH appointments
- Prompts and notifications for MCH appointments
- "Ask Nora" search feature and child growth tracker
- A list of useful contacts
- Also available in community languages
