Acknowledgement of Country

We, Greater Shepparton City Council, acknowledge the Yorta Yorta Peoples of the land which now comprises Greater Shepparton, we pay our respect to their tribal elders, we celebrate their continuing culture and we acknowledge the memory of their ancestors.

Message from the Mayor

Greater Shepparton City Council is pleased to present the Greater Shepparton Universal Access and Inclusion Plan (UAIP) 2022-2026. Council's vision is for all residents and visitors to have full and equal access to Greater Shepparton's vibrant lifestyle. Council is committed to enhancing our strong and inclusive communities and continuing to create opportunities for all.

Council has an important role to play in supporting the livability of the region for people with a disability. Our UAIP 2022-2026 sets out a practical and fiscally responsible approach to improve the accessibility and inclusiveness of the Council's infrastructure, services, and information over time.

The UAIP 2022-2026 outlines what Council will do to address the barriers people with a disability might face, and it also acknowledges the contribution that people with a disability make every day to our diverse community.

Council is looking forward to working with the community on the implementation of the UAIP 2022-2026.

**Cr Kim O'Keeffe,
Mayor**

WHAT IS THE UNIVERSAL ACCESS AND INCLUSION PLAN?

The Universal Access and Inclusion Plan (UAIP) is a document designed to identify and address the barriers all sectors of the community encounter in their day-to-day life. The UAIP outlines how Council intends to improve access and inclusion for residents of and visitors to Greater Shepparton by identifying key actions which respond to the priority areas that will be delivered over the UAIP's lifetime.

What is inclusion, access and disability?

To be part of the local community, people living with a disability or barriers require buildings, streets, and open spaces that are accessible and welcoming. Along with accessible public transport that meets their needs.

Access refers to the removal or reduction of barriers (physical or attitudinal) to safe and dignified access to and participation in community activities. Access is just one small part in the broader context of inclusion.

Whilst there is no universally accepted definition of social inclusion the Australian Social Inclusion Board defines social inclusion as having the resources, opportunities and capabilities to:

Learn

Participate in education and training

Work

Participate in employment, unpaid or voluntary work including family and carer responsibilities

Engage

Connect with people, use local services and participate in local, cultural, civic and recreational activities

Have a voice

Influence decisions that affect them

According to the Disability Act 2006, Disability includes anyone with impairment or barrier of a physical, intellectual, psychiatric, neurological or sensory nature. Disability can either be temporary or permanent and something that is acquired or present from birth.

The World Health Organization (WHO) definition of a barrier is “Factors in a person’s environment that, through their absence or presence, limit functioning and create disability.”

Council's Role

Greater Shepparton City Council acknowledges not all people living with a disability are alike. People living with a disability, individuals with specific needs, priorities and perspectives are often based upon their own personal circumstances and experiences.

The Disability Discrimination Act 1992 makes it a legal requirement for Greater Shepparton City Council to provide equal access to employment, public buildings, goods, services and facilities.

All Victorian councils have a Disability Action Plan (DAP) which is sometimes known as a UAIP, like in the case of Greater Shepparton City Council. A DAP identifies actions to remove physical barriers for people with a disability and is also designed to increase employment and change community attitudes.

Councils provide a range of advice, support, guidance and services to ensure the wellbeing of people with a disability to maintain their preferred lifestyle and independence, and have the same opportunities as other members of the community.

For the purposes of this document, an internal partner is any Council department or employee working towards achieving the actions in this plan. For the purposes of this plan, an external partner is any service provider or person living or working in Greater Shepparton that is assisting Greater Shepparton City Council to achieve the actions outlined in this plan

The development, implementation, monitoring and evaluation of the UAIP will be led by Council's Access and Inclusion Officer working in collaboration with internal and external partners. Various Council Departments and Teams will be required to report their progress against the actions outlined in this plan. The report(s) will be tabled at a Council meeting on an annual basis. The submitted report(s) will then be published on Greater Shepparton City Council's website.

Universal Design Principles

Greater Shepparton City Council is guided by seven principles of Universal Design and where possible tries to utilise the principles as a key tool to inform our programs, practices, policies, services and projects.

According to the Centre for Universal Design Australia the seven principles include:

1. **Equitable use**
The design is useful and marketable to people with diverse abilities. For example, a website that is designed to be accessible to everyone, including people who are blind and use screen reader technology, employs this principle.
2. **Flexibility in use**
The design accommodates a wide range of individual preferences and abilities. An example is a museum that allows visitors to choose to read or listen to the description of the contents of a display case.
3. **Simple and intuitive**
The use of the design is easy to understand, regardless of the user's experience, knowledge, language skills, or current concentration level. Science lab equipment with clear and intuitive control buttons is an example of an application of this principle.
4. **Perceptible information**
The design communicates necessary information effectively to the user, regardless of ambient conditions or the user's sensory abilities. An example of this principle is captioned television programming projected in a noisy sports bar.
5. **Tolerance for error**
The design minimizes hazards and the adverse consequences of accidental or unintended actions. An example of a product applying this principle is software applications that provide guidance when the user makes an inappropriate selection.
6. **Low physical effort**
The design can be used efficiently, comfortably, and with a minimum of fatigue. Doors that open automatically for people with a wide variety of physical characteristics demonstrate the application of this principle.
7. **Size and space for approach and use**
Appropriate size and space is provided for approach, reach, manipulation, and use regardless of the user's body size, posture, or mobility. A flexible work area designed for use by employees who are left or right handed and have a variety of other physical characteristics and abilities is an example of applying this principle.

SUMMARY OF RELEVANT LEGISLATION AND POLICIES

The Universal Access and Inclusion Plan 2022- 2026 has been informed by the legislative and policy context from the international arena as well as across the three tiers of government. This framework promotes and protects the rights of people with a disability and also aims to address issues of discrimination and disadvantage to make society a more equal place. The table below lists the relevant legislation and policies considered in the development of this Plan:

International

United Nations Universal Declaration of Human Rights 1948

United Nations Convention on the Rights of Persons with Disabilities 2008

National

Disability (Access to Premises – Buildings) Standards 2010 (reviewed 2021)

AS1428.1 – 2021 Design for access and mobility: General requirements for access - New building work

AS1428.2 – 1992 (Reconfirmed 2015) Design for access and mobility, Part 2: Enhanced and additional requirements - Buildings and facilities

AS1428.3 – 1992 (Reconfirmed 2015) Design for access and mobility, Part 3: Requirements for children and adolescents with physical disabilities

AS1428.4.1 – 2009 (Review) Design for access and mobility, Part 4.1: Means to assist the orientation of people with vision impairment - Tactile ground surface indicators

AS1428.4.2 – 2018 Design for access and mobility, Part 4.2: Means to assist the orientation of people with vision impairment - Wayfinding signs

AS1428.5 – 2021 Design for access and mobility, Part 5: Communication for people who are deaf or hearing impaired

Population demographics and statistics

According to the Australian Bureau of Statistics, the 2016 census data indicated that:

One in five

Australians reported living with a disability or disabilities (18.3% or 4.3 million people)

The percentage of people that require assistance with core activities increases as people age.

14.8 % of the population identifying as being born in a country other than Australia.

A further **22.1%** of Australians had a long-term health condition, but no disability.

9.2% of people aged between 70 and 74 need assistance with day to day activities.

This figure increases to **25.4%** for people aged 80 to 84 years and 42.8% for people aged 85 and over. It is important to recognise the term 'disability' represents many different personal challenges of impairment.

Disability prevalence in Greater Shepparton region

According to the Australian Bureau of Statistics 2016 census data, Greater Shepparton currently has a population of 65,076. Using the statistics above, it is estimated there are currently 11,600 people in the municipality who have a permanent disability, and 3,600 residents who are living with a temporary disability.

The municipality's Aboriginal population is the largest in regional Victoria, with an estimated **3.5 %** of residents having an indigenous heritage.

Photograph of Bentley Corbo taken in 2021 at the Sacred Heart primary School celebrated Bullying No Way Day.

Each student at the school designed and decorated a t-shirt with their own message that relates to inclusion and acceptance.

DEVELOPMENT OF UNIVERSAL ACCESS AND INCLUSION PLAN 2022- 2026

The UAIP 2022-2026 was developed in response to legislative and policy context and in consultation with people with a disability; carers; service providers; the broader community; and Council staff. The engagement period for the development of the UAIP occurred between April 15 and 26 July 2021. The engagement activities included a diverse range of methods to ensure a broad range of people were able to participate.

PROMOTION OF THE UAIP CONSULTATION

A number of methods were used to promote the opportunity to get involved in the development of the UAIP including:

Table 1. Engagement Tools

	<p>The UAIP survey and workshop bookings were advertised on the Shaping Greater Shepp webpage. The page hosted information about the previous UAIP, project timelines, workshop and pop up consultation details and the opportunity to book an individual session with the Access and Inclusion Officer.</p> <p>During the engagement period a total of 394 visits were recorded to the site.</p> <p>Posters were distributed to more than 270 individuals and organisations. Posters were displayed across Council sites and other sites including Stellar Café, Connect GV and libraries in Shepparton, Mooroopna and Tatura.</p>
	<p>Social media posts occurred periodically throughout the consultation period on Council's Facebook pages to encourage participation in the consultation. Social media posts reached 193 over the engagement period.</p> <p>A number of individuals and organisations reposted and/or shared the posts on their Facebook pages.</p>

	<p>Email invitations were sent to more than 270 people and organisations on the Access and Inclusion email list. Invitations were also distributed by other Council Officers via their professional networks.</p>
	<p>The community consultation was advertised in the Shepparton News and Shepparton Adviser from 12 June to 26 July 2021. These newspapers are distributed throughout Greater Shepparton.</p>
	<p>Information regarding the consultation was provided to NDIS's Local Area Coordinator (Interreach). Greater Shepparton Network of Disability Service Providers, along with all providers registered with the National Disability Agency, known as NDIA that provide services in Greater Shepparton.</p> <p>Information regarding the consultation was provided to service providers working in the access and inclusion sector including SCOPE, Rumbalara, The Ethnic Council of Shepparton and District, WDEA Works to name a few.</p>

Table 2. Community Engagement activities

A total of 303 voices were captured during the UAIP engagement period.

The UAIP survey formed the main component of engagement. Council received 98 responses. 48 in hard copy and 50 via the survey on the Shaping Greater Shepp website.

A total of four workshops were made available for community members and service providers to attend.

Numerous drop-in sessions were facilitated. The Access and Inclusion Officer also visited neighbourhood houses in Tatura and Murchison along with drop-in sessions in the Shepparton, Mooroopna and Tatura libraries. The Access and Inclusion Officer also visited the Social Connections program in Mooroopna.

The Access and Inclusion Officer conducted internal consultations with Council teams.

The Access and Inclusion Officer also conducted internal consultations with the Disability Advisory Committee, Positive Ageing Advisory Committee, Community Planning Committees and the Women's Charter Advisory Committee.

CONSULTATION FINDINGS

Outlined below are the consultation findings from community surveys conducted for the next iteration of the UAIP (2021-2025).

Participants Profile

- 98 participant's responded to the survey
- Participant ages ranged from 15 to 85+ with majority aged between 55 to 64 years (22%)
- Majority of participants identified as female (61%)
- 4% of participants identified as Aboriginal or Torres Strait Islander
- 10% of participants were born overseas
- Majority of participants (55%) indicated they either had a disability or were caring for a friend or family member with a disability

What's working?

- Participants identified the following areas as key areas where they think Council is doing well:
 - Sporting events and all abilities sporting opportunities
 - Provision of accessible infrastructure for new projects
 - Social connections
 - Disabled parking and wheelchair access
 - All abilities playground facilities
 - Inclusion of the Access and Inclusion Officer in Council program and infrastructure planning

What can be improved?

- Majority of participants (57%) identified that Council information on what is happening in the community was not provided in an appropriate format
- The most preferred consultation method was by post (52%) closely followed by social media (44%)
- Majority of participants (52%) identified that council consultations are not carried out in an accessible and inclusive manner

KEY PRIORITIES EMERGING FROM THE CONSULTATION

- The biggest barriers facing Greater Shepparton in becoming an accessible and inclusive community were identified as:

Where to advocate

- The top priority advocacy areas identified were:
 - More accessible public transport
 - More social housing in Greater Shepparton
 - More special disability accommodation

As a result of the community engagement activities four key priorities have emerged.

SOCIAL

Our people feel connected, included and valued.

BUILT AND NATURAL

Our people can participate in our built and natural environment.

ECONOMIC

Our people have a better choice of pathways that lead to education, employment and volunteering opportunities.

LEADERSHIP AND GOVERNANCE

Our people have a role in leading the way and are supported through good governance and policy direction.

UAIP ACTIONS

Key actions have been developed to respond to these priorities which can be found in the UAIP Action Plan provided later in this document. The UAIP actions have been categorised as:

Ongoing: Embedded as business as usual

ST: Short term – (Year 1-2)

MT: Medium-term – (Year 2-3)

LT: Long term – (Year 3-4 plus)

Lead(s) – the Council Officer or Department responsible for implementing the action

Partner(s) – Council Officers or external stakeholders assisting the lead to implement the action

SOCIAL

Our people feel connected,
included and valued.

	Action	Lead and Partners	Timeline
1.1	Implement all relevant actions in the Council Plan 2021-2025.	Access and Inclusion Officer All departments	Ongoing
1.2	Partner and lead on programs and activities that regularly celebrate people with disabilities/barriers by developing an annual calendar and promoting on Council's website.	Access and Inclusion Officer Activities in the Park Events Riverlinks External Stakeholders	Ongoing
