NOTES

An immense effort was made to include in the Program the places of highest heritage value within the Greater Shepparton Heritage Overlay, balancing this with the creation of a fair distribution across the municipality. However some buildings and sites of high heritage value are absent: this is because owners did not wish to participate, were uncontactable, failed to respond (eg Mooroopna Hospital), or missed deadlines in spite of great leeway being given.

The seemingly disproportionate number of plaques allocated to the Dookie area is due to the subsuming within the Heritage Plaques Pilot Program of a number of plaques funded by an earlier GS Interpretive Signage grant received by the Dookie Historical Society. The Society considered that for consistency of appearance the earlier group of plaques should be developed within the parameters of the Heritage Plaques Pilot Program.
